2. Background

“**CLEAR-Rights: enhancing legal assistance for children in Europe**” is a new project funded by the Justice Programme of the European Union. This 24-month project runs from 1 January 2021 until 31 December 2022 and is being coordinated by the Regional Office of Terre des hommes in Europe. It is implemented in partnership with the Alliance of Lawyers for Human Rights, Defence for Children International - Belgium, Defence for Children the Netherlands, PILnet and Terre des hommes Romania. The project’s main aim is to improve equal access to a lawyer for children suspected or accused of crime, through strengthening access to quality and specialized government-funded legal aid and pro bono legal assistance, in line with Articles 6 and 18 of Directive 2016/800/EU.

CLEAR-Rights seeks in particular to:

- Build the capacities and improve knowledge of legal aid and pro bono lawyers to provide child-friendly legal assistance to children in conflict with the law
- Establish a legal assistance network to match the legal needs of non-governmental organisations and children with legal aid and pro bono lawyers willing to provide legal assistance, as well as share promising practices related to providing legal assistance to children in conflict with the law
- Increase awareness of policy makers and service providers about legal aid and legal assistance for children in conflict with the law and benefit from a permanent legal assistance system

3. Objectives of the consultancy

The general objective of the consultancy is to elaborate, in collaboration with a legal expert, a document containing Guidelines and Quality standards regarding legal assistance for children in conflict with the law. “Guidelines” designates a set of directives addressed to lawyers working with children (in the framework of legal aid or pro bono) that will guide them

so that the legal assistance and representation they provide to children is adapted to them. “Quality standards” designates a set of requirements and guidance that are necessary so that this assistance is effectively adapted and accessible to children.
